Ostrer & Associates

## WATER BILLING NOTICE

[AUGUST 2022 BILL INSERT]

### Village of Harriman Water Customer:

For several years now, the Village of Harriman Water Department has undertaken a system-wide replacement of customers water meters with new digital meters at no cost to water customer. This project has been impeded by water customers who have failed to maintain curb boxes and other water fixtures in good condition that is necessary to replace the old meter or who have refused to schedule an upgrade of the old meter.

At the July 12<sup>th</sup> Village Board meeting the Board of Trustees adopted Local Law #08-2022 to impose an assessment onto the quarterly water bill for water customers who have refused to allow the Village onto the property to install the new digital water meter or who impeded the Village's ability to replace meters by failing to maintain their curb box or water fixtures in violation of *Village Code 136-3 and 136-2-J*.

**Effective November 1, 2022**, water customers with old meters shall, in addition to all other applicable charges, fees and assessments, be charged an ***"Obsolete Meter Charge"*** assessment of **\$30.00** on each subsequent quarterly bill. The charge shall be assessed to the entire quarter and for each subsequent quarter for as long as the older style meter equipment remains installed for any part of the subsequent quarter.

If you have not scheduled an appointment or have repaired your equipment and would like to schedule an appointment, please call the Village Hall at (845) 783-4421 and we can upgrade your water meter.
