

CLEAR THE WAY TO THE METER

For the health and safety of our field representative, especially our meter reader, we ask that you maintain a safe area around your meter so that our employees can access it and read it accurately.

Here's what you can do to help our meter readers get an accurate monthly reading of your energy use:

- Make sure that trees, cines and shrubs are trimmed near the meter
- Keep the pathway to the meter free of debris and vegetation
- Eliminate stinging insects and poisonous plants from the area
- Keep your dog inside, in another room or away from the meter on the scheduled meter reading date that appears on your monthly statement

If you prefer to submit your own meter reading, please go to www.oru.com/ezreader
